SHORT BIO

I am an economist and statistician with almost twenty years of experience in microeconomic research, in addition to collection, implementation, supervision, and analysis of household and community survey microdata. I have conducted research and fieldwork activities in Africa, South and Southeast Asia, Central America, and Eastern Europe. Before joining IFPRI, I worked at the World Bank, FAO, UNICEF, and the African Development Bank where I was involved in agricultural development, poverty, and nutrition research, collaborating on several research projects and flagship publications. My interests include the relationships among poverty, nutrition, food security, agriculture, environment, production, and migration, analyzed both at the micro and macroeconomic level, mostly through quantitative (statistical and econometric) methods. I led the evaluation of the largest Sustainable Agriculture Intensification program in Africa, in addition to several impact assessments of agricultural development interventions from multilateral development agencies. I received the Master's and PhD degrees in Economics from University of Rome -Tor Vergata-.

EDUCATION

PhD in Economics (2005), University of Rome *Tor Vergata*
MPhil in Economics (2000), University of Rome *Tor Vergata*
BSc and MA in Economics (1999), University of Rome *La Sapienza*

PROFESSIONAL EXPERIENCE

Senior Research Fellow, IFPRI, 2018-present
Research Fellow, IFPRI, 2012-2017
Consultant, World Bank-FAO-UNICEF, 2010-2011
Extended Term Consultant, World Bank, 2007-2009
Consultant, FAO-World Bank, 2003-2006

RESEARCH INTERESTS

Agriculture, rural development, and poverty
Food and nutrition security
Survey methodology and design
Migration, remittances, intergenerational and inter-household transfers
